Grateful to have crossed paths with this beautiful soul. As brief as it was... I can't imagine not sharing the time that we did. "I've seen fire and I've seen rain! I've seen sunny days that I thought would never end! I've seen lonely times when I could not find a friend but I always thought that I would see you again" Much love to you John, and to those that love you. Wishing you all peace & love. Forever....

I just came across this and am so deeply saddened by the loss of John. I have tried to locate him for years. Last I knew he was in Vegas. I dreamed about him all night last night and started to look for John again tonight only to see this. I met John when he was 19 and had just moved in with his dad across from me in the condos. I was only 16, but John was my first love. I remember he used to play my guitar and he helped me with my first pet snake, Bonehead. We used to listen to Alice Cooper, Billy Squire and Pink Floyd together.

What moves through us is a silence, a quiet sadness, a longing for one more day, one more word, one more touch, we may not understand why you left this earth so soon, or why you left before we were ready to say good-bye, but little by little, we begin to remember not just that you died, but that you lived. And that your life gave us memories too beautiful to forget.
